SERVICE BULLETIN

600.027

TO: Bloomfield Authorized Service Agencies
FROM: Allen K. Fransden
SUBJECT: SS-2 Satellite Brewer Control Board Upgrade

September 29, 2000

Applicable to: SS-2 Satellite Brewer Models 900023 and 900027

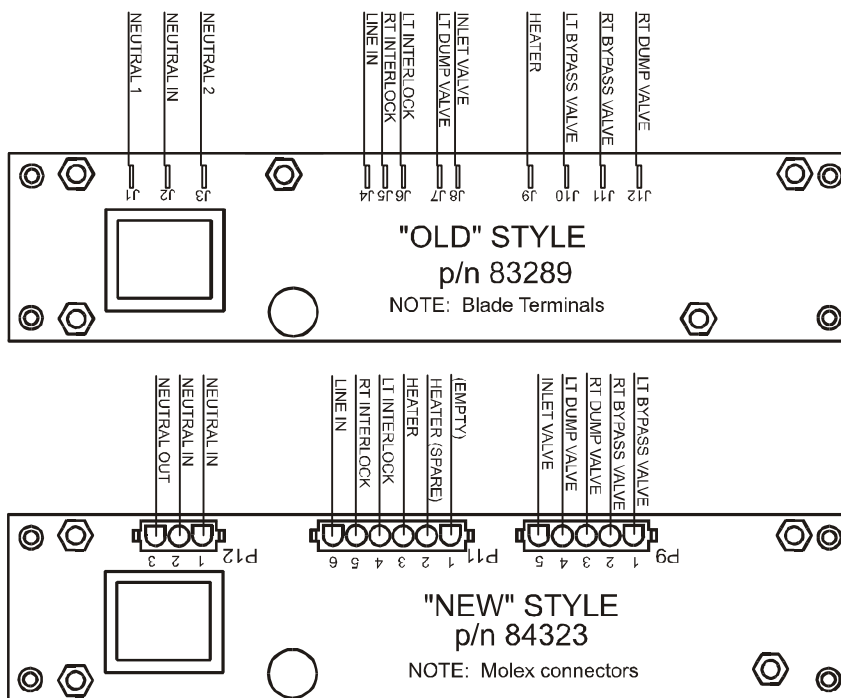

The CONTROL CIRCUIT BOARD has been upgraded. The "new" control board is p/n 84323. The "old" control board (p/n 83289) is obsolete, effective immediately.

Effective serial numbers:

Model 900023	from s/n 11M3680
Model 900027	from s/n 06M3122

An upgrade kit to convert "old" style board to "new" style is available as p/n 83960. This kit contains the upgraded control board, as well as the modified wiring and revised brackets necessary to insure a proper installation.

IMPORTANT: There is the possibility that undocumented upgrades have been made. In order to positively identify which board is installed, use the drawings below :

If replacement of an "old" style board is required, upgrade kit p/n 83960 must be used.
